Agricultural science grade 11 textbook pdf download term 4. Agricultural science grade 11 textbook pdf download term 3. Download agricultural science textbook pdf grade 11 term 2. What is basic agricultural science.

Agriculture Grade 11 Notes: Livestock Production (Poultry) Introduction: The poultry industry in Ethiopia has witnessed tremendous growth, driven by the use of artificial incubation and brooding techniques. Hybrid birds are readily available for both egg-laying and broiler production, making poultry a reliable source of income and food for rural and urban communities. Key points: • Poultry encompasses domestic birds such as turkeys, ducks, geese, pheasants, doves, pigeons, and ostriches. • Ostrich farming has become a lucrative activity in recent times. • Poultry production begins with egg incubation. Parts of an Egg: • Shell: 10-12% of the whole egg content, composed of calcium and phosphorus, protecting the inner contents.
