**INSPIRING *LOGAN'S STORY* DOCUMENTARY SHOWS AUDIENCES THAT
MIRACLES ARE FOR TODAY**

BURKE, VIRGINIA (June 14, 2021) — 1 Voice Films, producer of *For the Glory*, is excited to introduce a new, inspiring film, *Logan's Story*. This documentary follows the life of Logan Watts, who suffered a traumatic brain injury at only five-years-old following an accident on a tree swing at their family camp. The story follows his family and friends as they battle grief, guilt, and the constant onslaught of bad news from doctors, and choose instead to cling to their faith in God for Logan's healing.

Logan's father, Jonathan Watts, describes the change in his relationship with God that began with Logan's accident: "You really want to know about prayer? You don't need a book, you need a problem. I began to pray to God like I've never prayed in my life." A phrase the Watts family adopts during this trial is "What a difference one day makes!"

Associate Producer, Nancy Rogers, spoke highly of this project, saying, "Doing this film, I was able to see firsthand an outstanding young man, Logan, who overcame many obstacles in his life and used that strength to further the gospel."

Logan's Story will be available July 1st on DVD, Digital, and On Demand. This 52-minute film's inspiring message will encourage your family, strengthen the faith of your church congregation, and demonstrate that God's healing power is still at work today.

Chris Rogers, Director of *Logan's Story*, remarked that "It is amazing to tell a story where God is a main character. Where we see Him reveal a bit of His glory."

Logan's Story is being distributed by Vision Video. More information about *Logan's Story* can be found at www.logandocumentary.com.
